## NOTES AND COMMENTS.

Morristown is now free from small-pox.

Fencing is a busy industry just now in Rugby, and "speed the plow" has been the motto for some weeks.

Tennessee is said to have one saloon to every five hundred and twenty-two persons, and Nevada one to every sixty five.

Fast, brilliant and fashionable are the Diamond Dye colors. One package colors 1 to 4 lbs. of goods. 10 cents for any color.

Judge William S. Woods, who succeeds Postmaster-General Gresham as Supreme Judge of Indiana, is a native of Tennessee.

Mr. Daniel Lyon, of New York City, has bought a sheep ranch of 700 acres, near Glades, between the farms of Mr. Henry Kimber and Mr. Fisher.

Fourteen thousand pounds of strawberries were shipped from Chattanooga to Cincinnati, Wednesday night, and the season but just commenced.

A copy of Rowell's American Newspaper Directory for 1883, just issued, may be had for the very low price of \$3.50, at the office of the Plateau Gazette.

An English gentleman experimenting in his park with dynamite, blew an elm tree a distance of one hundred yards. He used less than three cunes of the explosive.

Mr. James Queener, a gentleman widely known and esteemed in East Tennessee, died at Knoxville last Saturday. His remains were buried at Coal Creek, Anderson county.

Miss Ina Giles has undertaken the task of teaching the ideas of the young Allardites how to shoot, and we do not doubt that under her care the youthful mind will be wisely filled.

The prevalence of child marriages in India is such that a strong effort is likely to be made for their prevention. Widow's Schools are now being established for the victims of these early marriages.

A telephone line is being erected between Careyville and Jacksboro, in the adjoining county of Campbell. It is about time we in Rugby had similar communication with Sedgemoor and Glen Mary.

Commissioner McWhirter, of the Bureau of Agriculture, Mines, Immigration, etc., has secured \$250 for the publication of a pamphlet descriptive of East Tennessee as a desirable locality for home seekers.

A colored man named Elias Hinson was tree felling in Bledsoe county last Saturday, when a large tree, just before it was expected to fall, slipped from the stump, and striking Hinson's body, completely cut it in two.

The well-known and very fertile island in the Tennessee River, about ten miles below Chattanooga, called Williams' Island, has been sold to Mr. J. H. Craig, of Cleveland, Tenn., for \$25,000. It contains about 450 acres.

Chapped hands. A few drops of Johnson's Anodyne Liniment rubbed into the hands occasionally will keep them soft and free from soreness. Soldiers, sailors and fishermen should remember this. It is the best Liniment in the world for any purpose.

Governor Bate has appointed as a board of directors for the new Insane Asylum in East Tennessee, Robert H. Armstrong, C. C. McClung and G. C. Flanders, all of Knoxville.

As visitors to the University of Tennessee from East Tennessee, he has appointed Perce Dickinson, Knoxville; J. B. Stokely, Newport, and H. B. Yearwood, Sweetwater.

The past week of warm fine weather, with the beautiful rain of Thursday, has made every garden green, and "decked the meadows with delight."

Ex-Treasurer Polk is once more at large, this time upon a bond of \$35,000. He strenuously denied that he contemplated leg bail, but Judge Allen was determined to do his best to hold him, and he thought a new and increased bond would do it.

Knoxville is not only the geographical centre of the United States, but it is the musical and dramatic centre of Tennessee. Nashville and Memphis with double our population, has not a half of our vocal and instrumental talent.—*Knoxville Chronicle.*

The Biographer, an illustrated monthly, published at 23 Park Row, New York City, is an important addition to periodical literature. The engravings are fairly good, and the lives are concise and carefully prepared. President Arthur comes first, with Mr. Gladstone second.

The Allard farmers are straining every muscle to be up alongside with nature, and are rapidly transforming the face of that section of country. Already the visitor who has not seen the place for some months will be struck by the many new landmarks and changes. The steam drilling for coal is in full operation, and three whistles shrilly waken the echoes of the plateau.

A Tertio-Millennial is to be celebrated by Santa Fe, New Mexico, in July and August, 1883. The event will be commemorated by an exposition, and amusements and festivities upon a grand scale. We have been kindly remembered by the management, but fear there is no chance of our being able to use the ticket sent us. If we had both time and the other thing we would go.

On Tuesday, upon the suggestion of one of the residents of the Tabard Hotel, the lady and gentlemen visitors at that well-known hostelry, with Mr. Ross and his gardener, went to the cemetery and did a useful morning's work in repairing, and decorating with flowers, the graves of the young Englishmen who died during the fever of 1881. This kind service will be appreciated by those who have the remains of friends lying in the hill-side cemetery.

Under the Cumberland Mountain, near Sparta, is a cave with which is connected many murderous mysteries. It was recently explored by Professor Colton, who found large quantities of human bones and skulls; of negroes it is supposed. The cave is believed to have one time been the home of the famous robber, John A. Murrell, who lived at the beginning of this century, and did frightful work in stealing, selling and murdering negroes.

We are indebted to Mr. Ross for a beautiful plate of fine and ripe—not half-ripe—strawberries, picked on Thursday in his well-known and prolific garden. Visitors at the Tabard will find Mr. Ross' strawberry bed one of the most "popular resorts" on the Plateau; while the practical man on the lookout for paying investment will see in the soil climate and surroundings of Rugby a locality admirably suited for profitable and early strawberry, and other fruit growing.

At the beginning of the century Tennessee law branded with a hot iron on the right cheek of the horse thief, the letter H, and on the left the letter T. It also gave him one hour in the pillory and a public whipping, and cut both ears from his head. Eventually this law was repealed and hanging was the punishment for horse-stealing. This, too, was repealed in 1807, and only whipping, branding in the hand, the pillory and imprisonment inflicted. Since 1829 the penitentiary system has been adopted.

In the death of the Hon. W. E. Kendrick, who died near King's Creek, Roane County, last Saturday, East Tennessee loses a citizen of great ability and honest life. Although he had reached but thirty-three years, he had accomplished much. At the age of twenty-five he filled an important and responsible position in the Treasury Department at Washington. Later he assisted his brother, Capt. R. S. Kendrick, in the management of the Chattanooga Daily Republican and the Daily Commercial. He subsequently represented Roane county in the Tennessee General Assembly.

Our Sedgemoor correspondent writes that Shaver, Hall and Frisbee's saw mill is in full operation there, making the usually quiet place quite lively. Both Mr. Frisbee and Mr. Jones have erected houses. Mr. J. W. Clark has moved with his family into Mr. Greenwood's house for a short time, previous to going to Oneida. Mr. Lancaster is paying a visit to Lexington, Ky., his place being filled by Mr. Massey, from New River. Mr. Frisbee is at Williamsburg on business.

Mr. Marshall's house is still empty, he preferring to sell than to rent. The only grocery here now being in the hands of Mr. Duncan, that gentleman is doing a good business.

Among the episcopal visitations recently planned out by the College of Bishops of the Methodist Church South we notice Bishop Pierce takes the Fifth District, and that the Tennessee Conference will be held at Shelbyville, on October 17th. The amount apportioned for Tennessee is \$18,000.

There are a few changes in the time table of the Cincinnati Southern Railway Company, in effect from May 6th. The day mail and express, South bound train, leaves Cincinnati at 9:15 a.m., instead of at 9 a.m. as formerly, and the 4 p.m. accommodation train from Cincinnati now runs on to Somerset, which it reaches at 10 p.m.

If Ponce de Leon, in his search for the fabled fountain, had taken up his abode in the mountains of Tennessee, while he would have in a degree been disappointed, his dreams would have been half realized in finding, not the rejuvenating waters, but the next best substitute, the only known rejuvenator, a wholesome and invigorating climate. And while the many immigrants now looking toward Tennessee for permanent homes, will find this no Eutopia; its blue mountains and rippling brooklets, its immense forests, its mineral wealth of iron ore and coal, its undeveloped natural resources renders it a desirable home for the varied industries and occupations of civilization.—*E. T. News.*

There are still some parts of East Tennessee that from their outlying, or inlying, positions do not practically add much to the wealth of this section. This applies especially to some of the counties on the Plateau way back from the line of rail that enters it in Scott county and runs off it in Roane county. These undeveloped counties, however, are rich in fine timber, unlimited coal, iron ores, and probably petroleum. Ways of communication only are wanted to add immensely to the wealth and progress of this section, and should but one of the several surveys be followed by the railroad—its reclamation by any other means will be very slow—the development of the Cumberland Plateau will be steady and certain.

On Monday, the 28th day of March, 1796, a little more than eighty-seven years ago, the first General Assembly of Tennessee convened at Knoxville. It continued in session twenty-six days and passed thirty-five laws. The first Speaker of the Senate was James Winchester, and the first Speaker of the House was James Stewart. Gen. John Sevier was inaugurated Governor, and Wm. Maclin chosen Secretary of State. We notice a difference in the salaries of members and other State officers then and at present. The members of the Assembly received \$1.75 per day and the same for every twenty-five miles travel, going and returning. The salary of Governor was \$750. At that time the circulating medium of the country was gold and silver.—*McMinnville Standard.*

PERSONAL.—Among the visitors at the Tabard Hotel since our last issue we notice Mr. G. H. Pratt, wife and two children, Hastings, Nebraska; Miss M. E. Dandridge, Staten Island, N.Y.; Messrs. Roswell and W. D. Wear, Michigan; Mr. P. B. Winston, wife and daughter, Brownsville, Tenn.; Mr. W. L. Mallory, Shelby City, Ky.; Col. Henry Fitz, Washington, D.C.; Mr. H. A. Crowder, Chattanooga; Mr. Geo. Fielder, New York City; Mr. W. M. Carey, Dayton, Ohio; Mr. M. H. Scott, Towanda, Pa.; Mr. G. A. Circle and Mr. M. L. Wiser, Indiana.—Mr. A. G. Fry, of Jamestown, was at the Brown House on Tuesday.—Miss Ina Giles is gone to take charge of the new school at Allardt, Fentress county.—Mr. J. R. Haigh has returned to Rugby from England.—Mr. G. S. Herbert, so well known as the first caterer at the Tabard Hotel, is living in New Orleans, and forwards us a trustworthy and admirable Trade Guide to the Crescent City.

A vegetarian reports to the *British Medical Journal* the result of his year's experience without meat. At first he found the vegetables insipid, and had to use sauces and pickles to get them down. As soon as he became accustomed to the diet all condiments were put aside except a little salt. The desire for tobacco and alcohol left him spontaneously. Then all the digestive functions became regular, and he found himself free from headaches and bilious attacks. After three months a troublesome rheumatism left him, and at the end of a year he had gained eight pounds in weight. He believes that he can do more mental labor than before and that all his senses are more acute. For breakfast he has brown bread, apples and coffee; dinner consists of two vegetables, brown bread, and pie or pudding; for tea he rejoices in bread and jam, with milk and water, and for supper bread, jam, cold pudding, and, as a luxury, boiled onions. Eggs, milk, butter and cheese are used only in very small quantities. The dietist is a doctor, and his statement is drawing out many similar ones from medical men.

A neighbor of ours lost a valuable mare recently, it is supposed from bots. If he had used 25 cents worth of *Sheridan's Cavalry Condition Powder* he would have been driving his pretty Chestnut to-day. Sorry for you, Doctor. These powders are immensely valuable.

## POND'S EXTRACT

THE GREAT VEGETABLE PAIN DESTROYER & SPECIFIC FOR INFLAMMATION AND HEMORRAGES.

### RHEUMATISM, NEURALGIA.

No other preparation has cured so many cases of these distressing complaints as the Extract. Our Plaster is invaluable in these diseases, Lumbago, Pains in the Back or Side, &c. Our Ointment (50 cents) for use when removal of clothing is inconvenient, is a great help in relieving inflammatory cases.

**HEMORRAGES.** Bleeding from the Lungs, Stomach, Nose, or from any cause, is speedily controlled and stopped. Our *Nasal Spraying* (25 cents) and *Inhalers* (\$1.00), are great aids in arresting internal bleeding.

**DIPHTHERIA and Sore Throat.** Use the Extract promptly. It is a sure cure. Delay is dangerous.

**CATARH.** The Extract is the only specific for this disease. Cold in Head, &c. Our "Catarrh Cure," specially prepared to meet serious cases, contains all the curative properties of the Extract; our *Nasal Spraying* invaluable for use in catarrhal affections, is simple and inexpensive.

**Sores, Ulcers, Wounds, Sprains and Bruises.** It is healing, cooling and cleansing. Use our Ointment in connection with the Extract; it will aid in healing, softening and in keeping out the air.

**BURNS AND SCALDS.** For allaying heat and pain it is unrivaled, and should be kept in every family ready for use in case of accidents. A dressing of our Ointment will aid in healing and prevent scars.

**INFLAMED OR SORE EYES.** It can be used without the slightest fear of harm, quickly allaying all inflammation and soreness without pain.

**Earache, Toothache and Face-ache.** When the Extract is used according to directions, its effect is simply wonderful.

**PILES, Blind, Bleeding or Itching.** It is the greatest known remedy, rapidly curing when other medicines have failed. Pond's Extract Medicated Paper for closet use, is a preventive against Chafing and Piles. Our Ointment is of great service where the removal of clothing is inconvenient.

**For Broken Breast and Sore Nipples.** The Extract is so cleanly and efficacious that mothers who have once used it will never be without it. Our Ointment is the best emollient that can be applied.

**FEMALE COMPLAINTS.** Nephritis need be called in for the majority of female diseases if the Extract be used. Full directions accompany each bottle.

### CAUTION.

**POND'S EXTRACT** Has been imitated. The genuine has the words "Pond's Extract" blown in the glass, and our picture trademark on the surrounding half wrapper. None other is genuine. Always insist on having Pond's Extract. Take no other preparation. It is never sold in bulk, or by measure.

## FISHER'S REAL ESTATE

—AND— COMMISSION AGENCY.

F. C. Fisher in announcing that he is prepared to undertake the renting, the sale, and the purchase of house property and farm lands in and around Rugby would assure those ladies and gentlemen who may intrust him with commissions, that every care and prompt attention will be given to all their requirements. All transactions will be under his direct supervision.

Houses and farms for rent. Town lots and farms for sale. Lands suitable for vineyards, orchards and fruit growing. New lands laid out and prepared for farms. Contracts made for clearing, fencing and building. Intending settlers assisted in the choice of farms and building sites.

F. C. Fisher, at the present time, has some real bargains in farming lands.

### HEALTH AND CLIMATE.

All health seekers, whether from Northern or Southern States, should try the climate of the Cumberland Plateau. The recent United States Census shows it to be almost the only district east of the Rocky Mountains, entirely free from malarial, pulmonary and intestinal diseases.

The Plateau has a double climate, one resulting from latitude and the other from elevation. The air is pure and invigorating. The water is freestone; cool and sparkling. Mineral springs are numerous.

The mean summer temperature is 72 deg. Fahr., and in winter 37 deg. Fahr. The nights are always cool and refreshing.

### SOIL.

The soil is a sandy loam upon a mulatto clay subsoil. It is light, friable, holds manure, and is easily cultivated and responds readily and generously to the least fertilizer.

### CROPS AND GRASSES.

Corn, wheat, rye, oats, and barley all grow well, though this is not claimed as a grain growing soil. Tobacco is a profitable crop here, as also is sorghum. Hard grass, orchard grass, German and reed millet, timothy and red clover have all been tried, and take hold and root well. Kentucky blue grass also thrives wherever introduced. The natural pasturage is abundant.

### VEGETABLES.

Grow abundantly. Cabbage, onions, beans, sweet and Irish potatoes all make a fine return. The Irish potatoes are unexcelled by any grown in America. Sweet potatoes and onions yield 500 bushels per acre.

### FRUIT AND GRAPE CULTURE.

This region is especially adapted to fruit, and particularly to the winter apple and the grape. The apple crop here has never been known to fail. The trees are healthy, and the fruit smooth, plump, juicy and firm, rarely ever specking or rotting. The grape is also a sure crop where proper varieties are planted.

The vines are robust, and the grapes make excellent wines, which are in good demand. These two fruits are destined to become the great staple products of the Plateau.

Strawberries, blackberries, raspberries, currants, cherries, plums, and nearly all the small fruits thrive and bear prolifically.

### STOCK AND SHEEP RAISING.

The excellent natural pasturage, good drainage, abundance of running water and freedom from flies make these occupations eminently suitable and remunerative.

Stop feeding stock for eight months in the year. Come South, where you can buy cheap lands, work outdoors all the winter and turn your stock into the woods most of the year.

### LAND—TITLES WARRANTED AND DEFENDED.

The Board of Aid Estate, centrally situated on this plateau, consists of 35,000 acres of grazing, farming, fruit raising and vine growing lands.

**IT SKIRTS TEN MILES OF FRONTAGE ON THE CINCINNATI SOUTHERN RAIL ROAD, WITH FOUR DEPOTS LOCATED ON IT.**

The lands enumerated below are being offered in tracts suitable to all purchasers, at low figures and with defruct payments.

Board lands on the Cin. So. R.R., west of Glen Mary Station. About 3,000 acres of very desirable land fronting on the Cin. So. R.R., is here laid out in 100 acre farms. No farm is more than three miles from either Sunbright or Glen Mary Depots; to the latter are adjacent the Crooke Coal Mines, employing 200 men and with an out-put of twelve car loads per day. Glen Mary has 200 inhabitants, three stores, telegraph station and post-office, and is stopped at by all trains, four passenger and four freight daily. Good and ready market, with best shipping facilities for either agricultural produce or timber and tan-bark.

Also several fine tracts of land fronting and lying on the east side of the C.S.R.R., and half a mile south of Glen Mary.

Board lands on the Cin. So. R.R., west of Sunbright. These lands lie directly south of the above and are close to the thriving town of Sunbright, with 200 inhabitants, two hotels, Masonic Lodge, six stores and post-office. They are well watered and timbered, and have excellent market, shipping and especially lumbering facilities.

Board lands on the Cin. So. R.R., half a mile east of Robbins Station. Splendid timbered lands; rich soil and abundant pasturage. Underlying this tract is the Robbins Coal Vein. These lands will be sold for farming, lumbering and mining purposes, in tracts of a size to suit purchasers.

**RUGBY.** Founded in 1880, has many social advantages, viz., two Good Hotels, Fine Church and School Building, Public Library with 6,000 volumes, Large Commissary, Drug Store, Weekly Newspaper, Post Office with two mails per day, and also numerous good houses and attractive villa residences. Choice building lots are now being offered at very reasonable prices.

Sedgemoor, the station for the above, has also been laid out in town lots, and the Board is prepared to offer liberal inducements to persons settling there for manufacturing or business purposes. Sedgemoor has two stores and boarding houses, and promises to be a flourishing town in the near future. The C.S.R.R. has just put in there a siding, 1,500 feet long.

The Board's Rugby lands comprise several tracts lying west of Rugby, in Morgan and Fentress Counties, as well as all their territory between Rugby and Sedgemoor and Robbins Depots on the C.S.R.R. These lands are traversed by the Rugby and Sedgemoor Pike, a graded road, seven miles long and pronounced the best dirt road in Tennessee, and are, on account of the superior communication, as accessible to the railroad as the less remote lands of the Board. They are situated on the direct and, in winter, only line of traffic from the C.S.R.R. to Jamestown, Livingston, Celina and Brydstown, respectively the county seats of Fentress, Overton, Clay and Pickett Counties.

### CONCLUSION.

The past season has been eminently successful as regards all farming and gardening operations, the crops being invariably full and of excellent quality. We invite all interested persons to correspond with settlers now upon the ground.

Maps and plans can be seen at the Board's Office on Central Avenue.

Intending Settlers will be most liberally dealt with, and any information cheerfully given by

ROBERT WALTON,  
RUGBY, MORGAN CO., TENN.

## THE RUGBY DRUG SUPPLY

Is opened for the supply of Pure and Genuine Drugs and Chemicals; and, in seeking the support of his fellow-citizens, the Proprietor feels he may refer with confidence to an experience of twenty years in all branches of the business. No pains will be spared to ensure purity and accuracy in the manufacture of Pharmaceutical Preparations, whilst in the compounding of Physicians' Prescriptions and Family Recipes the greatest care will invariably be observed.

As it is impossible to give a list of every Drug and Chemical kept on hand, it will be sufficient to say that every Medicine, for which there is a demand, may be obtained, and that the stock is as varied as any in Tennessee.
